The Exercise Therapist

Practice Manager

September 2015 - November 2017 (2 years 3 months)

As Practice Manager, my responsibilities include administrative and treasury tasks such as managing the appointment schedule and taking payment using HICAPS, calculating and projecting cash flow, data collection and assisting with reporting for specialists and GPs. I was also involved in preparation of presentations for GPs and other health professionals, investors and the community and active business development of the practice by managing and controlling the email marketing and social media profile; including Facebook, Instagram and The Exercise Therapist website.
